TITLE	Tuition and Fees in Public Higher Education in the West, 1997-98. Detailed Tuition and Fees Tables.
INSTITUTION	Western Interstate Commission for Higher Education, Boulder, CO.
REPORT NO	WICHE-2A304
PUB DATE	1998-03-00
NOTE	61p.; For 1998-99 data, see HE 032 378.
AVAILABLE FROM	Western Interstate Commission for Higher Education, P.O. Box 9752, Boulder, CO 80301-9752 ($12 plus $4 postage and handling for paper copy or IBM compatible diskette). Tel: 303-541-0290; Fax: 303-541-0291.
PUB TYPE	Numerical/Quantitative Data (110)
EDRS PRICE	EDRS Price MF01 Plus Postage. PC Not Available from EDRS.
DESCRIPTORS	Educational Finance; Enrollment Trends; Fees; Graduate Study; *Higher Education; In State Students; Out of State Students; Paying for College; *Public Education; State Colleges; State Universities; *Student Costs; Tables (Data); Trend Analysis; *Tuition; Two Year Colleges; Undergraduate Study
IDENTIFIERS	*Western Interstate Commission for Higher Education

ABSTRACT

This document provides tuition and fee data for public institutions in the following member and affiliated states in the Western Interstate Commission for Higher Education (WICHE): Alaska, Arizona, California, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington, and Wyoming. Data tables cover: average annual percent change in tuition and fees, 1987-88 to 1997-98; average tuition and fees and average tuition and fees in constant (1987) dollars, 1997-98, 1996-97, 1992-93, and 1987-88; current versus inflation only charges, 1997-98; resident undergraduate and graduate tuition and fees at four-year institutions, 1997-98, 1996-97, 1992-93, and 1987-88; nonresident undergraduate and graduate tuition and fees at four-year institutions, 1997-98, 1996-97, 1992-93, and 1987-88; resident in-district/county and out-of-district/county tuition and fees at two-year institutions, 1997-98, 1996-97, 1992-93, and 1987-88; nonresident tuition and fees at two-year institutions, 1997-98, 1996-97, 1992-93, and 1987-88; average tuition and fees at four-year institutions by Carnegie classification and state, 1997-98, 1996-97, 1992-93, and 1987-88; and resident and nonresident undergraduate and resident and nonresident graduate tuition and fees at four-year institutions by Carnegie classification and state, 1997-98, 1996-97, 1992-93, and 1987-88. Three appendixes include the Carnegie classification of institutions of higher education, the procedure for converting current dollars to constant dollars, and the methodology. (CH)

Western Interstate Commission for Higher Education

The Western Interstate Commission for Higher Education (WICHE) is a public, interstate agency established to promote and to facilitate resource sharing, collaboration, and cooperative planning among the western states and their colleges and universities. Member and affiliated states are:

Alaska	Idaho	Oregon
Arizona	Montana	South Dakota
California	Nevada	Utah
Colorado	New Mexico	Washington
Hawaii	North Dakota	Wyoming

WICHE's broad objectives are to:

- Strengthen educational opportunities for students through expanded access to programs,
- Assist policymakers in dealing with higher education and human resource issues through research and analysis,
- Foster cooperative planning, especially that which targets the sharing of resources.

This publication was prepared by the Office of Policy and Information which is involved in the research, analysis, and reporting of information on public policy issues of concern in the WICHE states.

Data presented here are available in paper copy or on IBM compatible diskette format for $12.00 plus $4.00 for postage and handling through the WICHE Publications Office, P.O. Box 9752, Boulder, CO 80301-9752; Telephone: (303) 541-0290; FAX: (303) 541-0291.

ACKNOWLEDGMENTS

Tuition and fees data in this report were provided by state higher education governing and coordinating boards. We express our appreciation to the following individuals and agencies for providing the necessary information.

Alaska

Laurie Mayer, University of Alaska System

Arizona

Thomas J. Saad, State Board of Directors for Community Colleges of Arizona

Gale Tebeau, Arizona Board of Regents

California

Elias M. Regalado, California Community Colleges

Mark Lopez, California State University System

Patricia L. Romero, University of California System

Colorado

Sheila Seery, Colorado Commission on Higher Education

Hawaii

Judy Shishido, University of Hawaii System

Idaho

Ken Campbell, College of Southern Idaho

Louise Elrod, Idaho State Board of Education

Karen Streeter, North Idaho College

Montana

Laurie O. Neils, Montana Systems of Higher Education

Nevada

Tamela Gordon, University and Community College System of Nevada

New Mexico

Lillian Montoya-Rael, New Mexico Commission on Higher Education

North Dakota

Cathy McDonald, North Dakota University System

Oregon

Tom Hughes, Office of Community College Services

Loren L. Stubbert, Oregon State System of Higher Education

South Dakota

Nicole Hendrix, South Dakota Board of Regents

Utah

Brenda Kimber, Utah State Board of Regents

Washington

Kathy Raudenbush, Higher Education Coordinating Board

Rhonda Quash Coats, State Board for Community and Technical Colleges

Wyoming

Constance S. Brizuela, University of Wyoming

William H. Lovejoy, Wyoming Community College Commission

"--" indicates data are not available.

[1] Average annual increases in tuition and fees are presented with and without California (w/o CA). As of July 1, 1995, Oregon Health Sciences University is no longer part of the Oregon System of Higher Education. It is now an independent public corporation and sets its own tuition. Because of this change, its tuition is no longer reported in this publication.

[2] California institutions are excluded (see Table 13 for explanation).
Coconino County Community College (Arizona) opened in academic year 1994-95.
Oregon's tuition rates are not included in the averages for 1987-88 because the rates are not comparable to later years.
Klamath Community College (Oregon) began operations Summer Term 1996.

[3] The Consumer Price Index (CPI) reflects changes in the price of a fixed basket of goods and services that are purchased by consumers in general. The CPI in Table 1 is based on an annual average for fiscal years 1988 through 1997. The Higher Education Price Index (HEPI), not reported here, reflects the effect of inflation on the operations of colleges and universities. The HEPI generally varies 1 to 2 percentage points from the CPI.

Source : Western Interstate Commission for Higher Education, March 1998

[1] The University of Alaska Board of Regents eliminated the consolidated fee cap effective Fall 1995. Resident undergraduates are now charged $71 per credit hour for lower division credits and $79 per credit hour for upper division credits with no limit on the number of credits. The figures reported here represent the mean of the lower and upper division charges assuming a course load of 15 credit hours for two semesters.

[2] There were no increases to state fees at the University of California System and California State University System between 1994-95 and 1997-98. Changes in fees reported for some institutions are the result of changes in institutional-based fees.

[3] California Maritime Academy joined the California State University System in academic year 1995-96.

[4] Statutory authority to charge Duplicate Degree Tuition expired as of September 1, 1996.

[5] California State University, Monterey Bay opened in 1995-96.

[6] California State University, San Marcos opened in 1991-92.

[7] Higher rates apply to certain fields.

[8] Upper division undergraduate students pay a higher tuition rate.

[9] University of Colorado Health Sciences Center has separate rates for each field.

[10] Tuition and fees for upper division undergraduates are reported; lower division undergraduate rates are the same as those for community colleges.

[11] Montana made the following institutional name changes in 1994-95: Eastern Montana College to Montana State University--Billings; Montana College of Mineral Science and Technology to Montana Tech of the University of Montana; Montana State University to Montana State University--Bozeman; Northern Montana College to Montana State University--Northern; the University of Montana to University of Montana--Missoula.

[12] Effective Fall 1995, Montana State University--Billings and Montana State University--Northern changed their "flatspot" from 12-18 credit hours to 14-18 credit hours. Montana State University--Bozeman continues to have a "flatspot" at 14-18 credit hours. The rates reported here are for a typical full-time student taking 14-18 credit hours.

[13] Effective Fall 1995, these institutions changed their "flatspot" from 14-18 credit hours to 12-18 credit hours and introduced a differential tuition rate for upper and lower division students. The lower division rate for a full-time student is reported here. For FY98, upper division students paid $2,701 at Montana Tech; $2,825 at University of Montana--Missoula; and $2,511 at Western Montana College.

[14] Mayville State University initiated a new notebook computer fee in 1997-98.

[15] Valley City State University initiated a new notebook computer fee in 1996-97.

[16] The regional colleges were awarded university status in 1996-97.

[17] As of July 1, 1995, Oregon Health Sciences University is no longer part of the Oregon System of Higher Education. It is now an independent public corporation and sets its own tuition. Because of this change and because it has separate rates for each field it is no longer being reported here.

[18] In Fall 1995, Utah State University switched from a linear to a plateau tuition schedule.

Table 7: RESIDENT GRADUATE TUITION AND FEES AT PUBLIC FOUR-YEAR INSTITUTIONS IN THE WICHE REGION: STATE AVERAGES, 1997-98, 1996-97, 1992-93, and 1987-88.

*California State University, Monterey Bay opened in 1995-96; California State University, San Marcos opened in 1991-92.

**Mesa State College (Colorado) reported a new graduate program in business administration this year, it is not included in this year's simple average.

***Western Montana College of the University of Montana was removed from the state averages because it stopped offering graduate programs in 1992-93.

****Simple averages do not include the University of Colorado Health Sciences Center and Oregon Health Sciences University which have separate rates for each field.

Source : Western Interstate Commission for Higher Education, March 1998

[1] The University of Alaska Board of Regents eliminated the consolidated fee cap effective Fall 1995. Resident graduate students are now charged $158 per credit hour with no limit on the number of credit hours. The figures reported here assume a course load of 12 credit hours for two semesters.

[2] Arizona charges additional required fees per student for law, nursing, and selected master's degree programs.

[3] There were no increases to state fees at the University of California System and California State University System between 1994-95 and 1997-98. Changes in fees reported for some institutions are the result of changes in institutional-based fees.

[4] The California State University System does not charge a fee differential for graduate and undergraduate fees. Therefore, the fee charges are the same for both full-time graduate and undergraduate students.

[5] Statutory authority to charge Duplicate Degree Tuition expired as of September 1, 1996.

[6] California State University, Monterey Bay opened in 1995-96.

[7] California State University, San Marcos opened in 1991-92.

[8] Mesa State College started a new masters in business administration program in Fall 1997.

[9] Higher rates apply to certain fields.

[10] Amounts reported are for 15 credit hours based on a per-credit-hour rate. The typical "full-time" graduate course load at Colorado Springs is nine credit hours.

[11] University of Colorado Health Sciences Center has separate tuition rates for each field.

[12] Montana made the following institutional name changes in 1994-95: Eastern Montana College to Montana State University--Billings; Montana College of Mineral Science and Technology to Montana Tech of the University of Montana; Montana State University to Montana State University--Bozeman; Northern Montana College to Montana State University--Northern; the University of Montana to University of Montana--Missoula.

[13] In Montana, graduate students taking a "minimum" full-time course load of nine credit hours pay lower tuition than students taking a "typical" full-time load of 12 credit hours. Tuition for a "typical" full-time load is reported.

[14] The regional colleges were awarded university status in 1996-97.

[15] As of July 1, 1995, Oregon Health Sciences University is no longer part of the Oregon System of Higher Education. It is now an independent public corporation and sets its own tuition. Because of this change and because it has separate rates for each field it is no longer being reported here.

[16] Oregon Institute of Technology started offering a master's degree program in 1995-96.

[17] In Fall 1995, Utah State University switched from a linear to a plateau tuition schedule.

Source : Western Interstate Commission for Higher Education, March 1998

[1] The University of Alaska Board of Regents eliminated the consolidated fee cap effective Fall 1995. Nonresident undergraduates are now charged $221 per credit hour for lower division credits and $229 per credit hour for upper division credits with no limit on the number of credits. Figures reported here represent the mean of the lower and upper division charges assuming a course load of 15 credit hours for two semesters.

[2] There were no increases to state fees at the University of California System and California State University System between 1994-95 and 1997-98. Changes in fees reported for some institutions are the result of changes in institutional-based fees.

[3] California State University, Monterey Bay opened in 1995-96.

[4] California State University, San Marcos opened in 1991-92.

[5] Higher rates apply to certain fields.

[6] Upper division undergraduate students pay a higher tuition rate.

[7] University of Colorado Health Sciences Center has separate rates for each field.

[8] Tuition and fees for upper division undergraduates are reported; lower division undergraduate tuition rates are the same as those for the community colleges.

[9] Montana made the following institutional name changes in 1994-95: Eastern Montana College to Montana State University--Billings; Montana College of Mineral Science and Technology to Montana Tech of the University of Montana; Montana State University to Montana State University--Bozeman; Northern Montana College to Montana State University--Northern; the University of Montana to University of Montana--Missoula.

[10] Effective Fall 1995, Montana State University--Billings and Montana State University--Northern changed their "flatspot" from 12-18 credit hours to 14-18 credit hours. Montana State University--Bozeman continues to have a "flatspot" at 14-18 credit hours. The rates reported here are for a typical full-time student taking 14-18 credit hours.

[11] Effective Fall 1995, these institutions changed their "flatspot" from 14-18 credit hours to 12-18 credit hours and introduced a differential tuition rate for upper and lower division students. The lower division rate is reported here. For FY98, upper division students paid $7,920 at Montana Tech; $7,669 at University of Montana--Missoula; and $6,795 at Western Montana College.

[12] Mayville State University initiated a new notebook computer fee in 1997-98.

[13] Valley City State University initiated a new notebook computer fee in 1996-97.

[14] The regional colleges were awarded university status in 1996-97.

[15] As of July 1, 1995, Oregon Health Sciences University is no longer part of the Oregon System of Higher Education. It is now an independent public corporation and sets its own tuition. Because of this change and because it has separate rates for each field it is no longer being reported here.

[16] The nonresident tuition differential at Dakota State University was reduced between 1988-89 and 1994-95.

[17] In Fall 1995, Utah State University switched from a linear to a plateau tuition schedule.

Source : Western Interstate Commission for Higher Education, March 1998

[1] The University of Alaska Board of Regents eliminated the consolidated fee cap effective Fall 1995. Nonresident graduate students are now charged $308 per credit hour with no limit on the number of credit hours. The figures reported here assume a course load of 12 credit hours for two semesters.

[2] Arizona charges additional required fees per student for law, nursing, and selected master's degree programs.

[3] There were no increases to state fees at the University of California System and California State University System between 1994-95 and 1997-98. Changes in fees reported for some institutions are the result of changes in institutional-based fees.

[4] The California State University System does not charge a fee differential for graduate and undergraduate fees. Therefore, the fee charges are the same for both full-time graduate and undergraduate students.

[5] California State University, Monterey Bay opened in 1995-96.

[6] California State University, San Marcos opened in 1991-92.

[7] Mesa State College started a new masters in business administration program in Fall 1997.

[8] Higher rates apply to certain fields.

[9] Amounts reported are for 15 credit hours based on a per-credit-hour rate. The typical "full-time" graduate course load at Colorado Springs is nine credit hours.

[10] University of Colorado Health Sciences Center has separate tuition rates for each field.

[11] Montana made the following institutional name changes in 1994-95: Eastern Montana College to Montana State University--Billings; Montana College of Mineral Science and Technology to Montana Tech of the University of Montana; Montana State University to Montana State University--Bozeman; Northern Montana College to Montana State University--Northern; the University of Montana to University of Montana--Missoula.

[12] In Montana, graduate students taking a "minimum" full-time course load of nine credit hours pay lower tuition than students taking a "typical" full-time load of 12 credit hours. Tuition for a "typical" full-time load is reported.

[13] The regional colleges were awarded university status in 1996-97.

[14] As of July 1, 1995, Oregon Health Sciences University is no longer part of the Oregon Systen of Higher Education. It is now an independent public corporation and sets its own tuition. Because of this change and because it has separate rates for each field it is no longer being reported here.

[15] Oregon Institute of Technology started master's degree program in 1995-96.

[16] The nonresident tuition differential at Dakota State University was reduced between 1988-89 and 1994-95

[17] In Fall 1995, Utah State University switched from a linear to a plateau tuition schedule.

Source : Western Interstate Commission for Higher Education, March 1998

[1] The University of Alaska Board of Regents eliminated the consolidated fee cap effective Fall 1995. Students in lower division courses at Prince William Sound pay $60 per credit hour and students in upper division courses pay $79 per credit hour with no limit on the number of credit hours. The figures reported here assume a course load of 15 credit hours for two semesters.

[2] Coconino County Community College opened in academic year 1994-95.

[3] In 1996-97, tuition increased at Mohave Community College and Yavapai College to bring revenues more in line with actual costs.

[4] Northland Pioneer increased tuition between 1987-88 and 1997-98 to be more in line with comparable institutions.

[5] For 1997-98 the enrollment fee is maintained at the 1996-97 level of $13 per unit with no cap on the total. Generally, the total enrollment fee for full-time students taking 15 units a semester in 1997-98 is $390 for undergraduates.

[6] Colorado Northwestern Community College charges no tuition for in-district residents; however, in-district residents are charged fees.

[7] Colorado Northwestern Community College initiated a new technology fee in 1996-97.

[8] Northeastern Junior College joined the State Board of Community Colleges in 1997-98. Tuition and fees were adjusted to be consistent with other members of the State Board of Community Colleges.

[9] Formerly Northern Nevada Community College.

[10] Tuition rates reported for Albuquerque Vocational-Technical Institute are for academic program students; vocational students pay a flat rate.

[11] Beginning in 1991-92, tuition rates reported for Luna Vocational-Technical Institute are for academic program students; vocational students pay a flat rate.

[12] Beginning in 1994-95, tuition rates reported for Mesa Technical College (formerly Tucumcari Area Vocational School) are for academic program students; vocational students pay a flat rate.

[13] New Mexico Junior College tuition was lowered in 1996-97 in an agreement with the local community.

[14] New Mexico Military Institute figures are for tuition and required fees and do not include boarding charges (all students are required to live on campus).

[15] As of 1992-93, tuition and fee data reported for Oregon are based on the rate for students taking 15 credit hours. In prior years, data were reported based on each college's definition of a full-time student. Therefore, data from 1992-93 forward are not comparable with data reported in previous years.

[16] In 1996-97, changes in tuition and required fees reflected decisions of local community college boards.

[17] Clatsop Community College capped charges at 12 credit hours prior to 1997-98.

[18] Klamath Community College began operations Summer Term 1996.

[19] Oregon Coast Community College is a service district of Chemeketa Community College.

[20] Tillamook Bay Community College is a service district of Portland Community College.

[21] Previously reported as Sheridan College in this annual report. Northern Wyoming Community College District incorporates Sheridan College and the outreach Gillette Campus.

* Coconino County Community College opened in 1994-95. Mohave Community College is not included in the Arizona average because it has had no out-of-district students for several years.

** Due to changes in data collection in Oregon, data from 1987-88 are not comparable to later years. Klamath Community College began operations Summer Term 1996.

*** Simple average of charges at all two-year institutions. California institutions are excluded. South Dakota has no state-supported, two-year institutions.

SOUTH DAKOTA					
South Dakota does not have any two-year, state-supported colleges.					
UTAH [1]					
WASHINGTON [1]					
WYOMING [1]					

Source : Western Interstate Commission for Higher Education, February 1998

[1] Two-year institutions in these states charge the same tuition for resident out-of-district/county and resident in-district/county students. See resident in-district tuition table for charges at individual institutions.

[2] Out-of-county students in Arizona's community colleges pay in-county rates. However, each out-of-county student's county board of supervisors pays an out-of-county differential based on enrollments in prior years and the current year's rate. The figures reported in this table are the out-of-county differentials. Increases and decreases are linked to a statutory formula which causes tuition to vary from year to year.

[3] Coconino County Community College opened in academic year 1994-95.

[4] Mohave Community College did not have any students from out-of-district counties in the years displayed, therefore no out-of-county differential was calculated.

[5] Three two-year institutions in Colorado have an out-of-district differential: Aims Community College, Colorado Mountain College, and Colorado Northwestern Community College.

[6] Colorado Northwestern Community College initiated a new technology fee in 1996-97.

[7] Northeastern Junior College joined the State Board of Community Colleges in 1997-98. Tuition and fe[illegible] were adjusted to be consistent with other members of the State Board of Community Colleges.

[8] Out-of-county students in Idaho pay in-county rates. The student's county pays an out-of-county differential equal to the difference between in-county rates and out-of-county tuition and fees. The figures reported in this table are total out-of-county tuition and fees.

[9] Beginning in 1991-92, tuition rates reported for Luna Vocational-Technical Institute are for academic program students; vocational students pay a flat rate.

[10] Beginning in 1994-95, tuition rates reported for Mesa Technical College (formerly Tucumcari Area Vocational School) are for academic program students; vocational students pay a flat rate.

[11] New Mexico Junior College tuition was lowered in 1996-97 in an agreement with the local community.

[12] New Mexico Military Institute figures are for tuition and required fees and do not include boarding charges (all students are required to live on campus).

[13] As of 1992-93, tuition and fee data reported for Oregon are based on the rate for students taking 15 credit hours. In prior years, data were reported based on each college's definition of a full-time student. Therefore, data from 1992-93 forward are not comparable with data reported in previous years.

[14] In 1996-97, changes in tuition and required fees reflected decisions of local community college boards.

[15] Clatsop Community College capped charges at 12 credit hours prior to 1997-98.

[16] Klamath Community College began operations Summer Term 1996.

[17] Oregon Coast Community College is a service district of Chemeketa Community College.

[18] As of 1997-98, Rogue Community College no longer charges an out-of-district/county differential.

[19] Tillamook Bay Community College is a service district of Portland Community College.

Table 17: NONRESIDENT TUITION AND FEES AT PUBLIC TWO-YEAR INSTITUTIONS IN THE WICHE REGION: STATE AVERAGES, 1997-98, 1996-97, and 1992-93.

Source: Western Interstate Commission for Higher Education, March 1998

* Coconino County Community College opened in 1994-95.

** Some California community colleges collect an additional nonresident fee from students who are citizens or residents of foreign countries; this fee is not included in the state average.

*** Due to changes in data collection in Oregon, data from 1987-88 are not comparable to later years. Klamath Community College bega operations Summer Term 1996.

**** Simple average of charges at all two-year institutions. California institutions are excluded. South Dakota has no state-supported, two-year institutions.

Source : Western Interstate Commission for Higher Education, March 1998

[1] The University of Alaska Board of Regents eliminated the consolidated fee cap effective Fall 1995. Students in lower division courses at Prince William Sound pay $180 per credit hour and students in upper division courses pay $229 per credit hour with no limit on the number of credit hours. The figures reported here assume a course load of 15 credit hours for two semesters.

[2] Coconino Community College opened in academic year 1994-95.

[3] State policy requires that nonresident tuition recover 80 percent of operating expenses. Tuition was adjusted in 1996 and 1997 to bring these institutions into compliance.

[4] Nonresident students pay both the state enrollment fee and nonresident tuition in addition to any applicable local campus charges.

[5] These colleges collect an additional nonresident fee from students who are citizens and residents of a foreign country; the fee is for capital outlay expenditures only. This fee may not exceed actual expenditures per FTE student in the prior fiscal year, and may not exceed 50 percent of the regular nonresident fee. The fee varies for different campuses and ranges from $60 to $570 per year and is based on 30 credit hours.

[6] Colorado Northwestern Community College initiated a new technology fee in 1996-97.

[7] Northeastern Junior College jointed the State Board of Community Colleges in 1997-98.

[8] Formerly Northern Nevada Community College.

[9] Tuition rates for Albuquerque Vocational-Technicial Institute are for academic program students; vocational students pay a flat rate.

[10] Beginning in 1991-92, tuition rates for Luna Vocational-Technical Institute are for academic program students; vocational students pay a flat rate.

[11] Beginning in 1994-95, tuition rates for Mesa Technical College (formerly Tucumcari Area Vocational School) are for academic program students only; previous out-of-district and nonresident rates were for vocational students.

[12] New Mexico Military Institute figures are for tuition and required fees and do not include boarding charges (all students are required to live on campus).

[13] As of 1992-93, tuition and fee data reported for Oregon were based on the rate for students taking 15 credit hours. In prior years, data were reported based on each college's definition of a full-time student. Therefore, data from 1992-93 forward are not comparable with data reported in previous years.

[14] In 1996-97, changes in tuition and required fees reflect decisions of the local community college board.

[15] Clatsop Community College capped charges at 12 credit hours prior to 1997-98.

[16] Klamath Community College began operations Summer Term 1996.

[17] Oregon Coast Community College is a service district of Chemeketa Community College.

[18] District policy allows a person to obtain resident status after residing in the district for 90 or more days. Tuition was reduced to encourage nonresident enrollment in 1996-97.

[19] Tillamook Bay Community College is a service district of Portland Community College.

[20] Previously reported as Sheridan College in this annual report. Northern Wyoming Community College District incorporates Sheridan College and the outreach Gillette Campus.

Source: Western Interstate Commission on Higher Education, March 1998

[1] There were no increases to state fees at the University of California System and California State University System between 1994-95 and 1997-98. Changes in fees reported for some institutions are the result of changes in institutional-based fees.

[2] Higher rates apply to certain fields.

[3] In Fall 1995, Utah State University switched from a linear to a plateau tuition schedule.

[4] The University of Alaska Board of Regents eliminated the consolidated fee cap effective Fall 1995. Resident undergraduates are now charged $71 per credit hour for lower division credits and $79 per credit hour for upper division credits with no limit on the number of credits. The figures reported here represent the mean of the lower and upper division charges assuming a course load of 15 credit hours for two semesters.

[5] Statutory authority to charge Duplicate Degree Tuition expired as of September 1, 1996.

[6] Montana made the following institutional name changes in 1994-95: Eastern Montana College to Montana State University--Billings; Montana College of Mineral Science and Technology to Montana Tech of the University of Montana; Montana State University to Montana State University--Bozeman; Northern Montana College to Montana State University--Northern; the University of Montana to University of Montana--Missoula.

[7] Effective Fall 1995, Montana State University--Billings and Montana State University--Northern changed their "flatspot" from 12-18 credit hours to 14-18 credit hours. Montana State University--Bozeman continues to have a "flatspot" at 14-18 credit hours. The rates reported here are for a typical full-time student taking 14-18 credit hours.

[8] Effective Fall 1995, these institutions changed their "flatspot" from 14-18 credit hours to 12-18 credit hours and introduced a differential tuition rate for upper and lower division students. The lower division rate for a full-time student is reported here. For FY98, upper division students paid $2,701 at Montana Tech; $2,825 at University of Montana--Missoula; and $2,511 at Western Montana College.

[9] California State University, Monterey Bay opened in 1995-96.

[10] California State University, San Marcos opened in 1991-92.

[11] Upper division undergraduate students pay a higher tuition rate.

[12] The regional colleges were awarded university status in 1996-97.

[13] There are no Baccalaureate (Liberal Arts) Colleges I in the 15 WICHE States.

[14] Tuition and fees for upper division undergraduates are reported; lower division undergraduate rates are the same as those for community colleges.

[15] Mayville State University initiated a new notebook computer fee in 1997-98.

[16] Valley City State University initiated a new notebook computer fee in 1996-97.

[17] University of Colorado Health Sciences Center has separate rates for each field.

[18] As of July 1, 1995, Oregon Health Sciences University is no longer part of the Oregon System of Higher Education. It is now an independent public corporation and sets its own tuition. Because of this change and because it has separate rates for each field it is no longer being reported here.

[19] California Maritime Academy joined the California State University System in academic year 1995-96.

Source: Western Interstate Commission for Higher Education, March 1998

[1] Arizona charges additional required fees for law, nursing, and selected master's degree programs.

[2] There were no increases to state fees at the University of California System and California State University System between 1994-95 and 1997-98. Changes in fees reported for some institutions are the result of changes in institutional-based fees.

[3] Higher rates apply to certain fields.

[4] In Fall 1995, Utah State University switched from a linear to a plateau tuition schedule.

[5] The University of Alaska Board of Regents eliminated the consolidated fee cap effective Fall 1995. Resident graduate students are now charged $158 per credit hour with no limit on the number of credit hours. The figures reported here assume a course load of 12 credit hours for two semesters.

[6] The California State University System does not charge a fee differential for graduate and undergraduate fees. Therefore, the fee charges are the same for both full-time graduate and undergraduate students.

[7] Statutory authority to charge Duplicate Degree Tuition expired as of September 1, 1996.

[8] Montana made the following institutional name changes in 1994-95: Eastern Montana College to Montana State University--Billings; Montana College of Mineral Science and Technology to Montana Tech of the University of Montana; Montana State University to Montana State University--Bozeman; Northern Montana College to Montana State University--Northern; the University of Montana to University of Montana--Missoula.

[9] In Montana, graduate students taking a "minimum" full-time course load of nine credit hours pay lower tuition than students taking a "typical" full-time load of 12 credit hours. Tuition for a "typical" full-time load is reported.

[10] California State University, Monterey Bay opened in 1995-96.

[11] California State University, San Marcos opened in 1991-92.

[12] Amounts reported are for 15 credit hours based on a per-credit-hour rate. The typical "full-time" graduate course load at Colorado Springs is nine credit hours.

[13] The regional colleges were awarded university status in 1996-97.

[14] There are no Baccalaureate (Liberal Arts) Colleges I in the 15 WICHE States.

[15] Mesa State College started a new masters in business administration program in Fall 1997.

[16] Oregon Institute of Technology started offering a master's degree program in 1995-96.

[17] University of Colorado Health Sciences Center has separate tuition rates for each field.

[18] As of July 1, 1995, Oregon Health Sciences University is no longer part of the Oregon System of Higher Education. It is now an independent public corporation and sets its own tuition. Because of this change and because it has separate rates for each field, it is no longer being reported here.

Source: Western Interstate Commission for Higher Education, March 1998

[1] There were no increases to state fees at the University of California System and California State University System between 1994-95 and 1997-98. Changes in fees reported for some institutions are the result of changes in institutional-based fees.

[2] Higher rates apply to certain fields.

[3] In Fall 1995, Utah State University switched from a linear to a plateau tuition schedule.

[4] The University of Alaska Board of Regents eliminated the consolidated fee cap effective Fall 1995. Nonresident undergraduates are now charged $221 per credit hour for lower division credits and $229 per credit hour for upper division credits with no limit on the number of credits. Figures reported here represent the mean of the lower and upper division charges assuming a course load of 15 credit hours for two semesters.

[5] Montana made the following institutional name changes in 1994-95: Eastern Montana College to Montana State University--Billings; Montana College of Mineral Science and Technology to Montana Tech of the University of Montana; Montana State University to Montana State University--Bozeman; Northern Montana College to Montana State University--Northern; the University of Montana to University of Montana--Missoula.

[6] Effective Fall 1995, Montana State University--Billings and Montana State University--Northern changed their "flatspot" from 12-18 credit hours to 14-18 credit hours. Montana State University--Bozeman continues to have a "flatspot" at 14-18 credit hours. The rates reported here are for a typical full-time student taking 14-18 credit hours.

[7] Effective Fall 1995, these institutions changed their "flatspot" from 14-18 credit hours to 12-18 credit hours and introduced a differential tuition rate for upper and lower division students. The lower division rate is reported here. For FY98, upper division students paid $7,920 at Montana Tech; $7,669 at University of Montana--Missoula; and $6,795 at Western Montana College.

[8] California State University, Monterey Bay opened in 1995-96.

[9] California State University, San Marcos opened in 1991-92.

[10] Upper division undergraduate students pay a higher tuition rate.

[11] The regional colleges were awarded university status in 1996-97.

[12] There are no Baccalaureate (Liberal Arts) Colleges I in the 15 WICHE States.

[13] Tuition and fees for upper division undergraduates are reported; lower division undergraduate tuition rates are the same as those for the community colleges.

[14] Mayville State University initiated a new notebook computer fee in 1997-98.

[15] Valley City State University initiated a new notebook computer fee in 1996-97.

[16] The nonresident tuition differential at Dakota State University was reduced between 1988-89 and 1994-95.

[17] University of Colorado Health Sciences Center has separate rates for each field.

[18] As of July 1, 1995, Oregon Health Sciences University is no longer part of the Oregon System of Higher Education. It is now an independent public corporation and sets its own tuition. Because of this change and because it has separate rates for each field it is no longer being reported here.

[19] California Maritime Academy joined the California State University System in 1995-96.

Source: Western Interstate Commission for Higher Education, March 1998

[1] Arizona charges additional required fees for law, nursing, and selected master's degree programs.

[2] There were no increases to state fees at the University of California System and California State University System between 1994-95 and 1997-98. Changes in fees reported for some institutions are the result of changes in institutional-based fees.

[3] Higher rates apply to certain fields.

[4] In Fall 1995, Utah State University switched from a linear to a plateau tuition schedule.

[5] The University of Alaska Board of Regents eliminated the consolidated fee cap effective Fall 1995. Nonresident graduate students are now charged $308 per credit hour with no limit on the number of credit hours. The figures reported here assume a course load of 12 credit hours for two semesters.

[6] Montana made the following institutional name changes in 1994-95: Eastern Montana College to Montana State University--Billings; Montana College of Mineral Science and Technology to Montana Tech of the University of Montana; Montana State University to Montana State University--Bozeman; Northern Montana College to Montana State University--Northern; the University of Montana to University of Montana--Missoula.

[7] In Montana, graduate students taking a "minimum" full-time course load of nine credit hours pay lower tuition than students taking a "typical" full-time load of 12 credit hours. Tuition for a "typical" full-time load is reported.

[8] The California State University System does not charge a fee differential for graduate and undergraduate fees. Therefore, the fee charges are the same for both full-time graduate and undergraduate students.

[9] California State University, Monterey Bay opened in 1995-96.

[10] California State University, San Marcos opened in 1991-92.

[11] Amounts reported are for 15 credit hours based on a per-credit-hour rate. The typical "full-time" graduate course load at Colorado Springs is nine credit hours.

[12] The regional colleges were awarded university status in 1996-97.

[13] There are no Baccalaureate (Liberal Arts) Colleges I in the 15 WICHE States.

[14] Mesa State College started a new masters in business administration program in Fall 1997.

[15] The nonresident tuition differential at Dakota State University was reduced between 1988-89 and 1994-95.

[16] Oregon Institute of Technology started master's degree program in 1995-96.

[17] University of Colorado Health Sciences Center has separate tuition rates for each field.

[18] As of July 1, 1995, Oregon Health Sciences University is no longer part of the Oregon System of Higher Education. It is now an independent public corporation and sets its own tuition. Because of this change and because it has separate rates for each field, it is no longer being reported here.

Appendix A

The Carnegie Classification of Institutions of Higher Education

Four-year institutions of higher education are classified using the 1994 edition of the Carnegie classification of institutions of higher education. The 1994 classification scheme groups institutions on the basis of the highest level of degrees awarded, number of degrees awarded, level of federal research support (for research institutions), and selectivity of admissions (for baccalaureate institutions).

Two significant changes were made to the classification scheme. First, the comprehensive category was renamed "Master's (Comprehensive)". It includes institutions awarding both bachelor's and master's degrees. Institutions are classified as Master's I or Master's II based on the number of master's degrees awarded. Enrollment is no longer a factor. Second, the liberal arts category is now called "Baccalaureate (Liberal Arts)." Baccalaureate I and Baccalaureate II institutions are primarily undergraduate institutions that are distinguished based on the percent of degrees they award in the liberal arts and the selectivity of their admissions.

The descriptions of the classifications that follow are taken from *A Classification of Institutions of Higher Education, 1994 Edition* (Carnegie Foundation, 1994).

Research Universities I: These institutions offer a full range of baccalaureate programs, are committed to graduate education through the doctorate, and give high priority to research. They award 50 or more doctoral degrees each year.[1] In addition, they receive annually $40-million in federal support.[2]

Research Universities II: These institutions offer a full range of baccalaureate programs, are committed to graduate education through the doctorate, and give high priority to research. They award 50 or more doctoral degrees each year. In addition, they receive annually between $15.5-million and $40-million in federal support.

Doctoral Universities I: In addition to offering a full range of baccalaureate programs, the mission of these institutions includes a commitment to graduate education through the doctorate. They award at least 40 doctoral degrees annually in five or more disciplines.

Doctoral Universities II: In addition to offering a full range of baccalaureate programs, the mission of these institutions includes a commitment to graduate education through the doctorate. They award at least 10 doctoral degrees annually in three or more disciplines, or 20 or more doctoral degrees in one or more disciplines.

Master's (Comprehensive) Universities and Colleges I: These institutions offer a full range of baccalaureate programs and are committed to graduate education through the master's degree. They award 40 or more master's degrees annually in three or more disciplines.

Master's (Comprehensive) Universities and Colleges II: These institutions offer a full range of baccalaureate programs and are committed to graduate education through the master's degree. They award 20 or more master's degrees annually in one or more disciplines.

---

[1]The years used for averaging the number of degrees awarded are 1988-89, 1989-90 and 1990-91.
[2]The years used in averaging annual federal support are 1989, 1990, and 1991.

Baccalaureate (Liberal Arts) Colleges I: These institutions are primarily undergraduate colleges with major emphasis on baccalaureate degree programs. They are selective in admissions and award 40 percent or more of their baccalaureate degrees in liberal arts fields.[3]

Baccalaureate (Liberal Arts) Colleges II: These institutions are primarily undergraduate colleges with major emphasis on baccalaureate degree programs. They are less selective in admissions or they award less than 40 percent of their baccalaureate degrees in liberal arts fields.

Professional Schools and Specialized Institutions: These institutions offer degrees ranging from the bachelor's to the doctorate. At least 50 percent of the degrees awarded by these institutions are in a specialized field.[4]

---

[3]The liberal arts fields include: area and ethnic studies, English language and literature, foreign languages, letters, liberal and general studies, life sciences, mathematics, multi- and interdisciplinary studies, philosophy and religion, physical sciences, psychology, social sciences, and the visual and performing arts.

[4]Specialized institutions include: theological seminaries; medical schools, medical centers, and other specialized health profession schools; schools of engineering and technology; schools of business and management; schools of art, music, and design; law schools; teachers colleges; other specialized institutions; and tribal colleges.

Appendix B

Procedure for Converting Current Dollars To Constant Dollars

The Higher Education Price Index was used to adjust for the effects of inflation. The base year used for the constant dollar conversions is 1987.

The formula for the constant dollar conversion is:

Constant dollars = {tuition, time t/(HEPI, time t/HEPI,base year)

For example, the procedure to convert average resident undergraduate tuition in 1997-98 shown in Table 3 to constant dollars is as follows:

1997-98 tuition in constant 1987 dollars = [2532/(HEPI, time t/HEPI,base year)]
= $1,716

Appendix C

Methodology

Since 1980, tuition and fees data have been collected annually from public, four-year and two-year institutions in the WICHE states. The data are provided by staff at system offices or at state higher education governing and coordinating board offices. Each year, the staff are asked to provide current tuition and fees data for resident and nonresident undergraduate, graduate, and professional students in public four-year colleges and universities, and for resident and nonresident students in public two-year colleges. In addition, staff are asked to verify and, if necessary, correct previously reported data.

WICHE began collecting tuition and fees data for North Dakota institutions in 1984, and for South Dakota institutions in 1988. In 1989, we began collecting and reporting tuition and fees for the additional category of resident out-of-district and non-resident students at two-year institutions.

The 1997 survey was mailed to state governing and coordinating board staff in June 1997. Staff were asked to provide tuition and fees data for 1997-98, and to verify and revise, if necessary, the reported data for 1996-97, 1992-93 and 1987-88. All surveys were returned by September 1997. The survey data were reviewed for possible errors, and problems were discussed with the staff in the appropriate office. This year's breakdown of institutions by Carnegie Classification used *A Classification of Institutions of Higher Education: 1994 edition* (Carnegie Foundation, 1994); the constant dollar tables were calculated using information from Research Associates of Washington, 1997.
